About Me

Hello there! I'm Simon, a software engineer with a background in software engineering and computer science from Linköping University. At 27 years old, I'm driven by a passion for all things software, with a particular focus on AI and web development. During my free time, I enjoy immersing myself in these areas, tinkering and exploring new possibilities. When I'm not engrossed in software, I find solace in nature. Additionally, music holds a special place in my heart and serves as my primary hobby.

Education

Master's and Bachelor's Degree

2018 - 2023

(Civ. ing.) Software Engineering and Computer Science

Linköping University

Engaged in a joint Bachelor's and Master's program at Linköping University, specializing in large-scale software development.

Bachelor's Degree

2017 - 2018

Information Systems

Lund University

Studied Information Systems at Lund University for a period of six months before shifting focus to Software Engineering.

Gymnasium

2012 - 2015

Social Science Program

Bladins

Enrolled in the Social Science Program at Bladins with a specialized focus on International Relations. Throughout the program, I had the opportunity to study all the subjects in English

Work Experience

Jun 2023 - Aug 2023

Summer Internship

Maxar Technologies

Participated in a summer internship at Maxar Technologies, gaining hands-on experience in full-stack development. Collaborated on the creation of an internal website from scratch

Summer 2017 - 2021

Garden Assistant

Nova trädgård

Provided support as a Garden Assistant, actively involved in tasks such as planting, watering, and installation of water systems.

Feb 2016 - Aug 2016

Warehouse Worker

Personalcentralen

Served as a Warehouse Worker, offering consulting services to multiple companies in the Malmö region, including Lantmännen and Panduro Hobby.

Sep 2015 - Feb 2016

Face-to-Face Sales Representative

Pepperminds

Engaged as a Face-to-Face Sales Promoting and selling monthly subscriptions for organizations such as Sightsavers and Hjärnfonden.

Extra-Curricular Activities

2022- 2023

Reception Responsible at the Computer Technology Section (STABEN)

Linköping University

Responsible for managing the computer technology section's reception at Linköping University.

2020 - 2021

Board Member of the Computer Technology Section

Linköping University

I actively contributed to the growth and development of the organization. I collaborated with fellow board members to implement strategic initiatives, organize events, and create a supportive environment for students during the pandemic.

2019- 2020

Bandmaster of Computer Technology Band (D-band)

Linköping University

I had a pivotal role in leading and motivating the band members. I effectively coordinated with organizers to ensure smooth communication and seamless collaboration.
