## Education

### Master's degree

2018 - 2023

**Civilingenjör Mjukvaruteknik / Software Engineering and Computer Science** Linköping University

Engaged in a joint Bachelor's and Master's program at Linköping University within software engineering, specializing in large-scale software development.

### Bachelor's Degree

2017 - 2018

**Systemvetenskap / Information Systems** Lund University

Studied Information Systems at Lund University one term.

### Upper Secondary School

2012 - 2015

**Social Science Program** Bladins

Enrolled in the Social Science Program at Bladins with a specialized focus on International Relations. Throughout the program, I had the opportunity to study all the subjects in English.

## Work Experience

Mars 2024 - Now

**Software Engineer** Vector

Embedded C++ developer within Adaptive Autosar, working with the network transport layer.

Jun 2023 - Aug 2023

**Summer Internship** Maxar Technologies

Participated in a summer internship at Maxar Technologies, gaining hands-on experience in full-stack development (Django and ReactJS). Collaborated on the creation of an internal website from scratch.

Summer 2017 - 2021

**Garden Assistant** Nova trädgård

Provided support as a Garden Assistant, actively involved in tasks such as planting, watering, and installation of water systems.

Feb 2016 - Aug 2016

**Warehouse Worker** Personalcentralen

Served as a Warehouse Worker, offering consulting services to multiple companies in the Malmö region, including Lantmännen and Panduro Hobby.

Sep 2015 – Feb 2016

**Face-to-Face Sales Representative** Pepperminds

Engaged as a Face-to-Face Sales Promoting and selling monthly subscriptions for organizations such as Sight Savers and Hjärfonden.

## Extra-Curricular Activities

2022- 2023

**Reception Responsible at the Computer Technology Section** Linköping University

Responsible for managing the computer technology section's reception at Linköping University.

2020 - 2021

**Board Member of the Computer Technology Section** Linköping University

I actively contributed to the growth and development of the organization. I collaborated with fellow board members to implement strategic initiatives, organize events, and create a supportive environment for students during the pandemic.

2019- 2020

**Bandmaster of Computer Technology Band (D-band)** Linköping University

I had a pivotal role in leading and motivating the band members. I coordinated with organizers to ensure good communication and collaboration to create the best possible gig.
