Skills

Programming languages	Kotlin, Java, C++, Typescript, Javascript, Python, C#, SQL
Frameworks & Techniques	React, Vue, Node.js, REST, Django, Flask, MongoDB, .NET, Tailwind, Bootstrap, CI/CD, CMake, GTest, Agile, Functional Programming, DevOps, Pair programming, AUTOSAR, Gradle
Tools & Environments	Git, Gerrit, Docker, PostgreSQL, NoSQL, GitHub Actions, Gitlab CI/CD, TCP/IP, UDP/IP
Languages	English, Swedish

Experience

CPAC Systems | Android Developer

Göteborg

Kotlin, Java, TypeScript, SQL, Jenkins, Gerrit, Gradle, GraphQL, gRPC, XML, Jetpack Compose, Room, Azure DevOps, JUnit/Truth, MockK

Feb. 2025 - Present

- Android Developer within the automotive domain, focusing on the development of construction industry applications
- Developing across the full stack, from UI to data layers and communication with a shared backend used by multiple apps.
- Responsible for introducing Jetpack Compose in the stack and maintaining a shared UI library used across several Android applications.
- Lead architect for a project, defining solutions, guiding technical direction, and supporting the development team.
- Participating in architectural decisions, requirements discussions, and technical planning with the product and development teams.
- Continuously contributing to improvements in the team's processes and workflow, including code reviews, testing strategies, and development practices.

Vector Informatik | Embedded Software Engineer

Göteborg

C++, Python, Java, DevOps, Docker, AUTOSAR, TCP/TLS, UDP, IP

Mar. 2024 - Feb. 2025

- Embedded C++ developer within Adaptive AUTOSAR, focusing on the network transport layer
- Leading multiple team projects, including technical problem-solving and development for customer-specific objectives

Knowit | DevOps Master's thesis

Linköping

DevOps, GitHub Actions, Gitlab CI/CD, Jenkins, Azure, Docker

Aug. 2023 - Dec. 2023

- Implemented a standardized DevOps workflow to address knowledge loss in project-based environments with high developer turnover
- Applied testing standards, coding standards, and containerization to enhance knowledge retention
- Automated workflows and integrated tools within a CI/CD pipeline for continuous delivery and process improvement
- Used CMMI (Capability Maturity Model Integration) to assess and define the organization's DevOps maturity levels before and after

Maxar Technologies | Full stack Developer

Linköping

TypeScript, Python, React, Django, PostgreSQL, CesiumJS, GIS, Agile

Jun. 2023 - Aug. 2023

- Built a web application from scratch to visualize data on an interactive globe.
- Handled the full development process as the sole developer, from gathering requirements based on team needs to implementing the solution.
- Worked using agile methods, delivering continuous updates and improvements on a weekly basis.

Education

Linköping University

Linköping

M.Sc. in Computer Science and Software Engineering (Swedish: *Civilingenjör i mjukvaruteknik*)

- Specialization - Large-scale software development
- Bachelor thesis - Technical drawings and logistics in the construction industry (VueJS, Typescript)

Lund University

Lund

Introduction to Information Systems (Swedish: *Systemvetenskap*)

- Completed one semester of coursework in Information Systems (Java, UML)

Extracurricular Activity

Datateknologsektionen | Welcoming committee

Linköping

Appearance and Music Coordinator

- Responsible for managing Datateknologsektionen reception at Linköping University
- Oversaw the team's presentation, including costume design, and managed all musical performances

Datateknologsektionen | Board Member

Board member at large

- Collaborated with fellow board members to implement strategic initiatives, growth and development of the organization
- Helped organize events and create a supportive environment for students during the pandemic

Datateknologsektionen | D-band

Band master

- Led rehearsal coordination and worked closely with the band to ensure alignment toward shared objectives
- Worked closely with event organizers to ensure good communication and collaboration for a successful performance

Linköping
